# DIY Imaging & more, by Sari Grove & friends...

Sari Grove explaining the ideas behind Do It Yourself Imaging.com a new site (2018!) short introduction video..4 minutes & 42 seconds...

- “The Imaging can see if cancer/Phosphorus/estrogen+ is present(in a picture you take yourself),
- Biochemistry of an area(Lead, Iron, Aluminum/cholesterol, Hydrogen/Her2+, Calcium/Progesterone+),
- & any inflammation in a further away picture...
- Developers are coding a new site DIYImaging.com to make the do it yourself editing way easier...
- For now, it is all free, & no downloading, all photo editors are online & free-just go step by step...
- If you friend me Sari Grove on Facebook, then private message me a picture, I can do it for you...”
- [How to do the DIY Imaging right now...This free PDF file has the screen by screen instructions for the 3 different edits you can do yourself...There is no downloading, & photo editors used are online & free...](#)

Here are videos you can watch instead of reading...This is called the LUNAPIC edit...(sees cancer, can see Lyme)...

The next is Fotoflexer, which sees 5 different Biomarkers...Lead, iron, Aluminum, Hydrogen, Calcium...Here is the video...

This video is Pixlr...This can see size changes or inflammation in the body from a faraway picture...

This link starts to describe what your Imaging results mean...

Grove Health Science books & this blog & Imaging & pretty much everything on this Blog, all refer to the Grove Body Part Chart...Here is a short post about HOW IT WORKS!

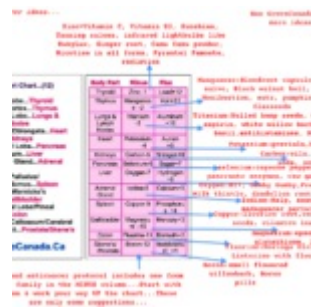

# DIY Imaging & more, by Sari Grove & friends...

The Grove Body Part Chart, & the Grove Brain part chart, connect to each other...The Correlations are just things that also tend to appear when you see your Imaging results...

For example, if you see lots of Yellow in Fotoflexer, that is Calcium...You may see that calcium often appears with Molybdenum...This means that you should also remove Molybdenum, even if you didn't see it in your imaging...

You are feeling confused by the chart? That is normal, but it is quite easy, once you get it...

Here is just the charts without the correlations...I have pointed to things in the real world, that are represented by the MINUS column of elements...Minus elements are your DETOX elements...(you need these if you are dealing with cancer, which is a problem of excess)...

Here is a Christmas video I recorded really quickly just to give you a fast answer...What should you do???

We have been building a new web portal all 2017...Here is more about that...If you want to participate financially, you can...DIYImaging.com will be the new address when it is live...

Hi...Sari sounds like Mary...I'm a Canadian artist who invented a map for humans called the Grove Body Part Chart...Grove Health Science is the name of the 12 book series...Most can be found free digitally on this blog or at not for profit prices on Amazon or Smashwords...In 2014, I developed DIY Imaging, a way to see cancer, biochemistry, inflammation, with any camera & free online photo editors...Since then I have been teaching the method & doing diagnostic imaging...DIY Cancer Repair Manual is a Facebook group I manage with \*2,601 people(\*as of Nov.7, 2017) who are pioneering new ways to solve cancer...DIYImaging.com is being built (2017) to make the diagnostic process even easier...This is revolutionizing diagnostic medicine...I am owned by two intact female bengals cats , B'elanna & Jadzia...My husband of almost 21 years Joseph Grove, does all the laundry, dishes, litter box cleaning & more, to ensure that I am free to plough out the corn , so to speak...

# Our books, for free, on Smashwords, Scribd & Academia.edu...(\*the Grove Health Science series by Joseph & Sari Grove)

<https://sarigrove.academia.edu/> This site created by Academia.edu hosts academic papers, books, talks, for academics...Sari Grove has a site there now, where you can read her manuscripts for free...!

Thursday October 19, 2017:This Link takes you to our DROPOBOX account where Grove health Science Books 1-11 are available for FREE!!!  
[https://www.dropbox.com/sh/ml8uy91q17gwhls/AAAvcQ\\_OXi78GMERwBnzdBcla?dl=0](https://www.dropbox.com/sh/ml8uy91q17gwhls/AAAvcQ_OXi78GMERwBnzdBcla?dl=0)

*HEADS UP! (That big red PDF button at the top left of all posts doesn't download embedded documents...Just stuff written directly into posts! Sorry! Sari...*

Book 10 & Book 11 got split into two pieces for paperback, because the PDF file of the manuscript was over 1000 pages...But in digital format, on Kindle, or online, you can stick a thousand page book into a clean file-so here is the clean file online as  
<http://grovecanada.ca/wp-content/uploads/kalins-pdf/GroveCanada%3AThe%20art%20of%20healingGROVECANADAX%26Y...2016.pdf>

On Amazon(not for profit) Book 10 is Book X, & Book 11 is Book XY...They are both GroveCanada:The Art of healing, part of Grove health Science...

Book 9 (DIY Cancer repair Manual)secretly here is a free version  
<http://grovecanada.ca/wp-content/uploads/2015/12/DIY-Cancer-Repair-Manual.pdf>

Hi...

(Sunday January 22nd, 2017)I noticed this post needs some updating...

There are now 11 books in Grove health Science...

# Our books, for free, on Smashwords, Scribd & Academia.edu...(\*the Grove Health Science series by Joseph & Sari Grove)

because the AMAZON Kindle Direct Program(KDP) has some restrictions about sharing, some books may not be available either here or on Smashwords in digital format...

I found the KDP program reaches more people...

Though the books are not free on Kindle, I do not make a profit on any of them...

I do not recoup any money that way at all...

But some people really like to pay for things...They do not respect free...Which is somehow why these paid versions reach a bigger audience...My goal was to reach people...

Ironically, this sometimes mean charging for something that could have been free...Go figure!

*Smashwords is the book publisher we use for under 10 megabyte versions of our books for free...This means you can even download them to your Kindle for iPhone, easily...So if you click on the book covers that takes you to the Smashwords page for each book, where you can choose which format you need...*

*If you want to see full bigger resolution versions of our books(still for free), our Scribd account has them & you can just read them online easily...Here is our Scribd profile address <https://www.scribd.com/grovecanada>*

*We also have free versions on <https://independent.academia.edu/SariGrove> for the Academic community... These can also be read online easily...*

*My Amazon Author page has our books in Kindle & Paperback formats...*

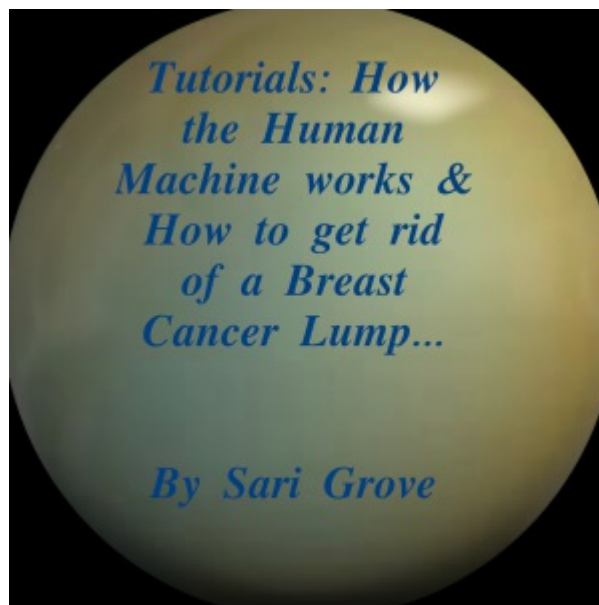

[http://www.amazon.com/Sari-Grove/e/B00CDYF39Y/ref=sr\\_ntt\\_srch\\_lnk\\_1?qid=1421340855&sr=8-1](http://www.amazon.com/Sari-Grove/e/B00CDYF39Y/ref=sr_ntt_srch_lnk_1?qid=1421340855&sr=8-1)

Our books, for free, on Smashwords, Scribd & Academia.edu...(\*the Grove Health Science series by Joseph & Sari Grove)

*They aren't free but I did price them at the absolute minimum that Amazon's Createspace would let me...*

*Ok, so below are the books...They are in reverse order...So Book 8 of the Grove Health Science series is first...*

Tutorials: How the Human Machine works & How to get rid of a Breast Cancer Lump...  
By Sari Grove

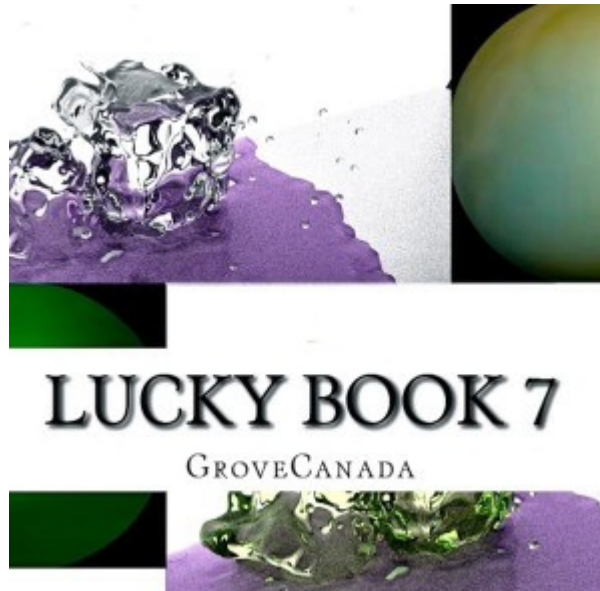

Price: Free! Words: 11,470. Language: English. Published: January 9, 2015. Category: Nonfiction » Health, wellbeing, & medicine » Cancer

Tutorials: How the Human Machine works & How to get rid of a Breast Cancer Lump...
